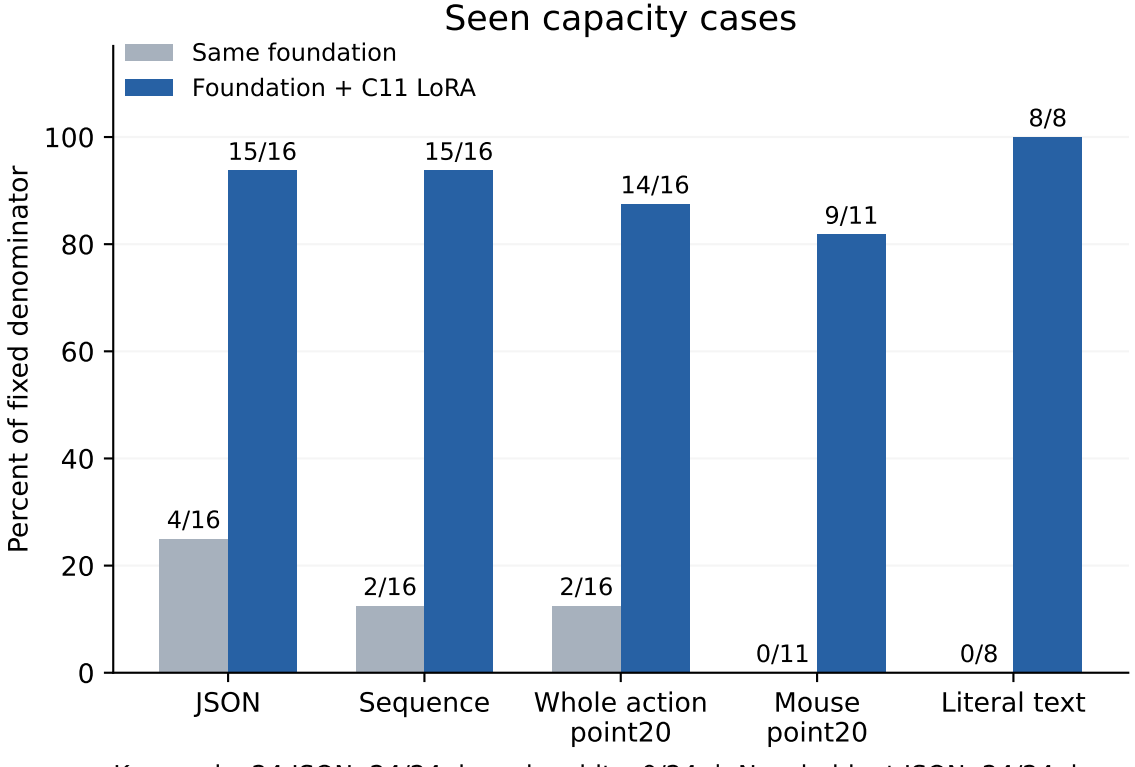
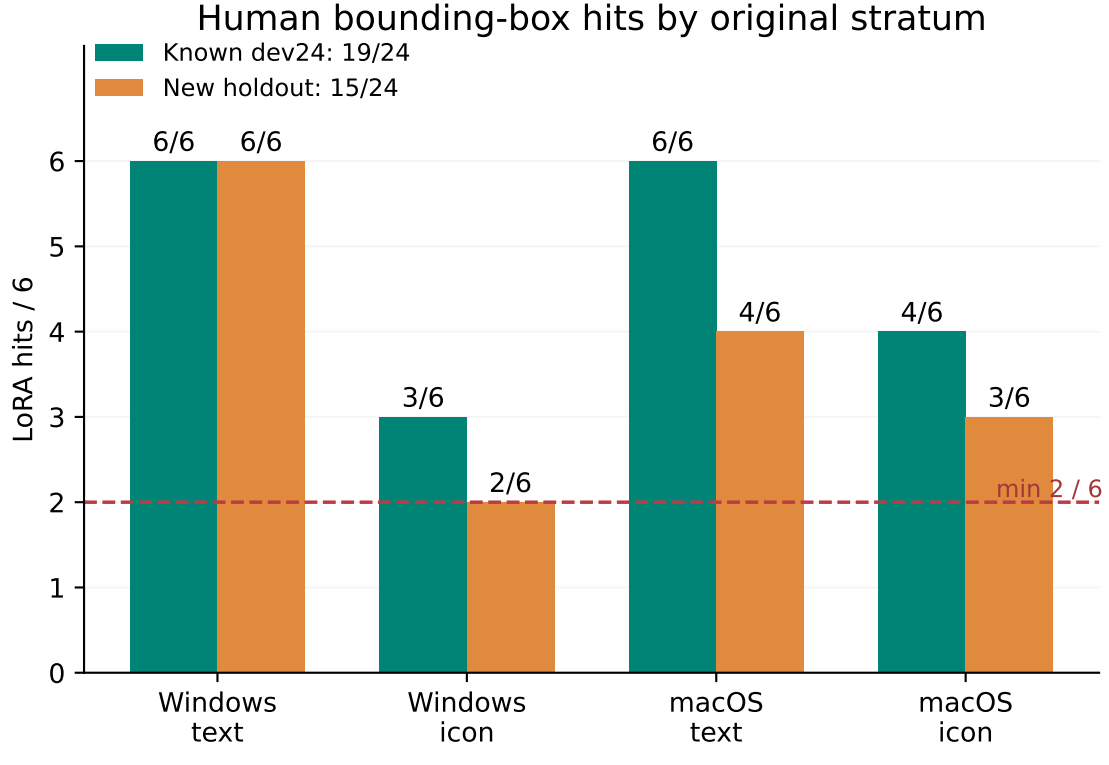
C11: all 16 offline gates passed; desktop T04 pending

Capacity: 8/8 | Known dev24: 4/4 | New holdout24: 4/4





Known dev24 JSON: 24/24; base box hits: 0/24 | New holdout JSON: 24/24; base box hits: 0/24

N/A is not zero accuracy. Original gates and denominators unchanged. Greedy decoding; no retries or repair.

Development and holdout are different cohorts. C7 / C8 / C10 / C11 holdouts differ; no matched improvement is claimed.

Offline clicking scores do not establish complete desktop task success. T04 not executed; WeChat test sends: 0.
